

SACHITH NIROSHAN KALHARA

Quality Assurance Engineer

Work Experience

■ 2023 January - 2024 September System analyzer (Ceco Pvt Ltd)

System analyzer

Working as the system analyzer at CECO pvt ltd was a good opportunity to Provide ongoing support and maintenance for systems, Troubleshoot issues and provide solutions to technical problems. And also it helped me to develop the Confidence in learning and implementing new systems quickly. Ability to adapt to new tools, technologies, and industry changes.

SUMMARY

Aspiring QA Engineer with a Higher Diploma in Software Engineering, seeking an internship to apply and expand my skills in real-world environments. Proficient in scripting languages such as JavaScript and Java, with experience in manual and automated testing using tools like Selenium and Postman. Strong foundation in software quality principles, problem-solving, and attention to detail. Eager to contribute to a dynamic team, learn from industry professionals, and grow my technical expertise in quality assurance. Passionate about ensuring high-quality software and committed to continuous learning and improvement.
